DETAILED ACTION

Receipt is acknowledged of the amendment and information disclosure statement filed 06/21/2004.

The rejection under the judicially created doctrine of obviousness-type double patenting over copending serial no. 10/211,025 is hereby withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-5 recite the limitation "said oil" in claim 1. There is insufficient antecedent basis for this limitation in the claim.

The claims should instead refer to said "metabolizable oil". Correction is requested.

Claim 59 recite the limitation "said oil" in claim 55. There is insufficient antecedent basis for this limitation in the claim.

The claim should refer to said "oil microdroplet". Correction is requested.

Claim Objections

Claims 62-70 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim does not depend upon another claim only in the alternative, and claims depending upon them are also improper. See MPEP § 608.01(n). Accordingly, the claims 62-70 not been further treated on the merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7, 9, 10, 13, 19-21, 64 and 67 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Hara et al (reference # 3).

Hara et al disclose the combination of cholesterol, cholesteryl oleate, L-alpha-lysophosphatidylcholine (cationic surfactant) and olive oil (see page 14547, Materials and Methods, Materials). Hara et al therefore discloses the formation of microdroplets through the combination of a metabolizable oil and an emulsifying agent. The particle of Hara et al also contains several other surfactants. Combined with the formed particle is a cytomegalovirus derived plasmid (see page 14547, Materials and Methods, Plasmids). The instant microemulsion is clearly anticipated by Hara et al.

Claims 6, 8, 11, 12, 14-18, 22-26, 34-49, 55-58, 60 and 61 are objected to as dependent upon a rejected base claim.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 6/21/2004 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609(B)(2)(i). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
